### New Premises Acquisition Dialog – June 2010

*Please read and follow the accompanying dialog notes before completing the questionnaire.*

Since the general meeting we have all had plenty of opportunity to meditate deeply on the many issues discussed that are associated with the purchase of our own premises.

The attached questionnaire moves us to the next step of the journey and takes into account any suggestions and concerns anyone may have. It is important to remember that meditation is the foundation of our sadhana and the key to wise and harmonious decision making, so the more we meditate on these matters, the better. There is no urgency in such large affairs.

Those who attended the meeting will have hopefully achieved a deeper understanding through the meditation process and become more detached from personal biases in favour of what is best for all. We can now continue the process by attuning and being receptive to God and Guru's will by spending another week meditating on these questions before answering. This will provide the satisfaction of knowing we have done the best we can to arrive at the right responses.

Those who did not attend the meeting should first read the attached notes from the meeting and do their best to attune to the progress that has already been made by those who have meditated on and considered the issues raised and discussed at the meeting. Meditation on these notes daily for a week, supplemented with reason and discrimination will provide deeper and purer insights.

It is important that we are all moving in a synchronized way with the same information and context, so we can act in a harmonious and prudent manner – so meditate, meditate, meditate.

Ideally it would be best to have a response from everybody so that the clearest picture possible is gained of the desire of the whole group, so please, do your best to respond by Sunday 11 July.

In our meditations please also consider the following points –

- Large bequests have been made to the group for the specific purpose of funding the purchase of premises. Donations are ongoing.
- Leasing is an inherently insecure tenure with the Sydney group having undergone the upheaval and spiritual distraction of relocating on an average of every 6 years.
- Currently we have no fixed lease
- This is our spiritual family. How does this relate to the way we feel about our own personal family situation? Would I prefer myself or my family to be renting or owning?
- Owning requires commitment - leasing maintains ongoing uncertainty

Updates and communication on the progress of the new premises process will be posted on the website in the last week of each month. It is everybody's own responsibility to check these pages for updates.
